About CUPP

On July 16, 1990, the Supreme Soviet of the Ukrainian SSR adopted the Declaration of Sovereignty, which declared that Parliament recognized the need to build the Ukrainian state based on the Rule of Law.

On August 24, 1991, the Ukrainian Parliament adopted the Declaration of Independence, which the citizens of Ukraine endorsed in the referendum of December 1, 1991. Also in 1991, Canadians celebrated the Centennial of Ukrainian group immigration to Canada. To mark the Centennial, Canadian organizations planned programs and projects to

celebrate this milestone in Canada's history.

The Chair of Ukrainian Studies Foundation of Toronto marked the Centennial by establishing the CANADA-UKRAINE PARLIAMENTARY PROGRAM (CUPP) for university students from Ukraine. CUPP gives Ukrainian students an opportunity to work and study in Canada's Parliament, and gain experience from which generations of Canadian, American and West European students have benefited.

On the basis of academic excellence, knowledge of the English or French and Ukrainian languages,

and on interest in the Westminster model of parliamentary government, university students from Ukrainian and foreign universities, can apply for the CUPP internship program. It is the goal of CUPP to contribute to the education of future leaders of Ukraine.

Since 1991 almost one thousand Interns, have completed the CUPP internship program and returned to their homeland. Two have become Cabinet Ministers, while others have been elected to Ukraine's Parliament.

They have helped establish three important projects, namely:

Professional Government Association of Ukraine, established in 2014 as a resource centre to help the Ukrainian Government to identify and prioritize programs, motivate government to carry out the projects, assist in getting resources and tools required to complete the projects/programs and measure and

publish the results.

Teach For Ukraine, a unique two-year leadership development program. Participants work in rural schools to create opportunities for children and mentor children in continuing education towards professions and trades.

Teach For Ukraine NGO is associated with Teach For All, which operates in forty-two countries.

Anna Mazurenko Children's Health Centre of Lviv, a first of its kind health/medical centre focused on children and families.

In 2017, 17 students from universities in Belgium, Germany, Netherlands, Poland, and Ukraine will complete a two-month internship in the House of Commons.

Concurrently, Canadian university students from the University of Saskatchewan, the University of Toronto and York University will complete an internship as part of the Macdonald-Laurier Program.

The Ukrainian National Federation of Canada joins CUPP Team

The Canada-Ukraine Parliamentary Program was established in 1990 by agreement between the Chair of Ukrainian Studies Foundation and Speaker of the House of Commons John Frasera.

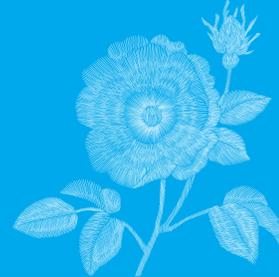

In 2017, The Ukrainian National Federation of Canada (UNF), the UNF FOUNDATION and the University of Toronto John Yaremko Chair in Ukrainian History joined with the Chair of Ukrainian Studies Foundation to continue the operation of CUPP, an internship program in the House of Commons for university students from Ukraine and Canada.

The UNF is Canada's oldest community organization with branches and members in Alberta, Saskatchewan, Manitoba, Ontario and Quebec. The president of the UNF is Taras Pidzamecky. The UNF Foundation has been providing funding for research, publications, education and other charitable activities in the Ukrainian Canadian Community for over 40 years. Taras Rohatyn is the Chair of the UNF Foundation.

Outstanding landmark or architecture of Saskatchewan: [University of Saskatchewan.](#)

By Viktoriya KALCHENKO

Established in 1907 and located on the picturesque East side of the South Saskatchewan river University of Saskatchewan is a major research-intensive institution in Saskatchewan and a member of the top 15 research universities in Canada. While Saskatoon offers the benefits of larger centres, it remains a university town with a strong sense of community. The following picture depicts the Peter MacKinnon Building formerly named the College Building. Designated as a provincial heritage property in 1982 and as the National Historic Site in 2001, the University's first building has long served as an architectural, intellectual, and emotional keystone of the campus. After the sod-turning ceremony on 4 May 1910, Prime Minister Wilfrid Laurier laid the cornerstone on 29 July 1910. Designed by Brown and Vallance, the building was constructed between 1910 – 1912 and was officially opened by Walter Scott, Premier of Saskatchewan on 1 May 1913 with these memorable words "...a state University...is second in importance to the Legislature of that state, because upon the work of the University during the twentieth century will depend in great measure...the character of the Legislature which will be representing the province, and the character of the government which the people of the province will be carrying on for themselves at the end of the century."

"Love Ukraine, like sun that you love
Like wind, like grass, and like water
Whenever you're happy, in moments
of gladness,
Love her, like you love your own
daughter."

Outstanding landmark or architecture in Ukraine: [Carpathian Mountains.](#)

By Kyrylo KOROL

There is nothing more beautiful and unique in the whole world as the Carpathian Mountains. Why? That is because those are great and long mountains, high enough to enjoy the view and feel yourself on top of the world but also climbable for everyone not experienced in hiking. These mountains are magical because of the history and culture that lays within. Hutsuls (гуцули) are the folk that lives there, many of them are still doing farming and stockbreeding to live. It is astonishing how they can live like that in 2016, when it seems that even a tiny tad of technology has spread everywhere on the globe. When I was there this summer on a three-day hike, we met couple of them and they gave us some goat cheese and fresh bread.

The sunsets are a must to see, they are charming, majestic and peculiar. When the sun sets behind Hoverla (the tallest mountain of Ukraine, 2061 m), it makes an enormous shadow on the woods below, kind of protecting from everything dangerous. Nevertheless, in the mountains it is always risky, there can be no water, no place to camp or to make fire. Or there can be a huge storm with rain and lightnings. And that is the beauty of the Carpathian Mountains: they are not welcoming but if you adapt, if you accept what you have and reduce your needs to minimum — you will become a part of the nature.

I would like to stipulate on my hometown's controversial

landmark often mistreated for its Soviet roots - Dnipro Hydroelectric Station or simply DniproHES, the biggest dam in Ukraine. This one of the embodiments of industrialization built for transforming the energy of moving water into electricity without the need to use fuel. The dam is not “beautiful” in itself, however, it is an impressive construction. It was built at the first half of the 20th century as a result of hard input of people themselves kneading concrete by their own legs. The station is also a functioning traffic bridge and has certain sight meaning to it because of the location. As a child, while going hiking to Khortytsia Island, the cradle of Ukrainian statehood, I used to enjoy the view from the DniproHES. It actually fits into the city sights that from the first impression are contradictory. My personal connection to it also includes the view from my painting class's window I used to appreciate while depicting the landscape. The location of the landmark, the Dnipro River is the soul of my city and the whole Ukraine, such landmarks as Khortytsia, DniproHES, Kahovka Reservoir, access to the Black sea show the transcending variety of history that happened on the Ukrainian territory. This fact also proofs that the river tends to unite, rather than divide the vivid shores of the country. To my mind, even the tragic pages that are embodied in such Dnipro landmarks should not be forgotten, more to that they should reflected and analysed.

Outstanding landmark or architecture in Ukraine: [The Boim Chapel](#).

By Liliya MAKHYNKO

The Boim Chapel is one of the most fascinating pieces

of architecture in Lviv, Ukraine. The Chapel was built between 1609 – 1616, and stylistically it represents the late Renaissance. It was Lviv merchant, Georgy Boim, who ordered to build this chapel as a burial place for himself and the family. Andrzej Berner, an architect, who created the Boim Chapel, as time has shown, did it not just solely for the Boim family, but for generations to come, who treat this Chapel as a great piece of cultural heritage. It's exterior is full of details and catches one's eye, having it's western wall covered with little sculptures of biblical personas, coming together into creating a single story – a story in pictures and sculptures, not words. However, one cannot always see the interior of the Chapel; it is not always open for tourists or Lviv residents to see. However, when I was lucky to get a chance to be inside of the chapel, it took my breath away. Not only because of the very detailed interior sculptures, but because the chapel seemed much bigger than it actually is. This is because of an interesting arrangement: the interior lighting comes through three round windows and at the top of the dome there is an octagonal lantern light, which creates an optical illusion, stressing upon the greatness of this, in fact, little building.

Outstanding landmark or architecture in Ukraine: [Balaklava Bay.](#)

By Maksym MAKSYMOW

Balaklava Bay is a magnificent landmark of Ukraine. Located in a currently occupied Crimea, Balaklava Bay is famous for its gorgeous colors: bright blue sea and sky, saturated green and grey mountains together with brown buildings makes this place unique. Balaklava Bay

may be viewed as a strong competitor to many southern Italian and French towns and villages. What makes this place special is the location of a military base which precluded many people from visiting it for a long time. As Crimea is occupied today, strong feelings of Ukrainians only strengthen towards the outstanding place.

Outstanding landmark or architecture in Ukraine: [Bilhorod-Dnistrovskyi fortress.](#)

By Ihor MEDVID

Bilhorod-Dnistrovskyi fortress is the biggest fortress in the country, and a unique monument to the defensive architecture of the 13th -15th centuries. However, historians do not know when Bilhorod-Dnistrovskyi fortress was initially founded. They tend to believe that the founder and the ruler of the fortress was the Genoese, who somehow managed to negotiate a deal with Mongols who controlled the surrounding territory. Despite its age and the historical events to which it was a first-hand witness, the fortress managed to preserve its original structure, and today it is considered to be the best preserved medieval fortification facility in Ukraine. The fortress was based on the remains of the Tyras, ancient Greek city on the northern coast of the Black Sea. Throughout history the fortress was under control of different empires, such as Moldovan, Ottoman and Russian. Over time, the fortress lost its defensive importance. For over a century, this impressive historical and architectural monument has been protected by the state. Today the fortress is popular place for many tourists who travel across southern part of Ukraine.

Outstanding landmark or architecture in Ukraine: [The Golden Gates.](#)

By Denys NAKONECHNYI

The Golden Gates were built in 11th century as the main entrance to the city of Kyiv by Yaroslav the Wise. The gateway along with stone fortifications that stretched for 3.5 km served for defense of citizens of the capital of Kyiv Rus'. The fact such majestic piece of architecture was built at that time proves how prominent was the level of development of the society of Kyiv Rus'. At that time you could see the gateway with the golden dome on top (the reason why the gates were called golden) from any spot of the city. Nowadays the Golden Gates are surrounded by a small and pleasant square. I always bring my foreign friends who visit me to the Gates and tell them about the history of Kyiv and Ukraine.

Outstanding landmark or architecture in Ukraine: [Khortytsia island.](#)

By Dmytro OMELCHAK

Since originally I come from Zaporizhzhya, my favorite place in Ukraine is obviously the Khortytsia island. I want to tell about this amazing place, where you can feel

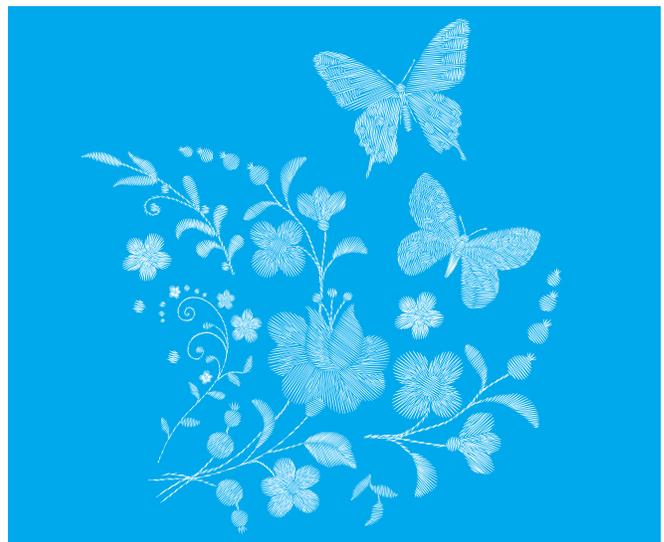

thousands of years of Ukrainian history and find signs of life from different periods: from pagan tribes to the Cossacks, and then to the industrial city of Zaporizhzhya.

Khortytsia is the biggest river island in the world. It is understandable why the BBC Channel decided to make a documentary movie about it in 2014. Only here you can find so many endemic animals, see how the Cossacks lived in the Sich, and be impressed by a fascinated view on the Dnipro river and the Dnipro Hydroelectric Station from the rocks on the north side of the island.

This place is really great for all those who love untouched nature. On the south, there are reed beds with tiny coves with thousands of beautiful water-lilies, herons, and other Red Book flowers and animals. I used to go to these places with my school teachers and parents when I was a kid. There are also many other interesting places such as a touristic beach, arroyos, rocks, and even caves.

This island played an important role during the 14th-18th centuries, being an outpost from attacks of Turks and Tatars. Then in the 17th century during the War for Independence, the island was a military center of the State and gave shelter from attacks of hostile armies.

This place is a significant attribute of the Ukrainian State, its independence and sovereignty. It personifies democratic values and principles of the Ukrainian society, its struggle on the way of building a wealth legal state with the rule of law and respect for human rights.

Outstanding landmark or architecture in Ukraine: Independence Monument at Maidan Nezalezhnosti in Kyiv.

By Khrystyna PARANDII

There are two landmarks which are indispensable for my perception of Ukraine. The first one is the Saint Sophia Cathedral in Kyiv, built in 1037 by Yaroslav the Wise as a symbol of prosperity of the Kyivan Rus', its Christian path and connectedness to European civilization. Nowadays this outstanding heritage site, protected by UNESCO, serves as a testimony of Ukraine's glorious past, richness of its culture and antiquity of our national roots.

The second one is Maidan Nezalezhnosti, the central square of Ukrainian capital, with its 61-meter Independence Monument – a column of a woman (Berehynia) holding guelder-rose branch in her arms. Erected only in 2001, this Monument symbolizes for me the new phase of Ukrainian history – the period of a modern nation, able to overcome historical divisions and foster national reconciliation for the sake of its future prospects to become a mature, well-developed state. This place has witnessed two Revolutions - in 2004 and 2014, becoming the arena of fighting for democratic values and human rights, and their eventual victory. This is why I look at Ukraine through the prism of these two landmarks: one of the oldest countries in Europe, but still with a young soul; the one that has overcome major upheavals and falls throughout its history, but still standing up straight and proud.

Outstanding landmark or architecture in Ukraine: Khotyn Fortress.

By Roman POLISHCHUK

Khotyn Fortress is one of the seven wonders of Ukraine. It is located on the right bank of the Dniester River which already gives this place a breath-taking view. The history of this fortress begins back in 10th century and this fact really amazes me. During its existence it has seen a lot of crucial historical events in both Ukrainian and other nation's histories. The fortress was destroyed and rebuilt several times but what I like the most about it is the feeling it gives you: like the time has frozen and nothing has changed since the times of the great warriors; it gives you the sense of freedom. That's what makes me want to come there again and again. Thinking of this place though gives me also a bittersweet feeling – it is so great and so historically important for us but very few Ukrainians know about it and come to visit. That's why every time I have a chance, I recommend people to come here because there couldn't be any regrets – only a pride in your country that has got places as amazing as this one.

Outstanding landmark or architecture in Ukraine: [Chersonesus.](#)

By Volodymyr RIZNICHENKO

The ancient city is located on the shore of the Black Sea at the outskirts of Sevastopol on the Crimean Peninsula, where it is referred to as Kherones. It has been nicknamed the “Ukrainian Pompeii”. The site is now part of the National Preserve of Tauric Chersonesos. The name “Chersonesos” in Greek means “peninsula”, and aptly describes the site on which the colony was established. It should not be confused with the Tauric Chersonese, the name often applied to the whole of the southern Crimea. During much of the classical period Chersonesus was a democracy ruled by a group of elected archons and a council called the Demiurgi. As time passed the government grew more oligarchic, with power concentrated in the hands of the archons. A form of oath sworn by all the citizens since the 3rd century BC has survived to the present day. In 2013, Chersonesus was listed as a World Heritage Site.

Thousands of passengers travel every day in this unique place decorated with 80 large mosaic pieces on the cellar and massive columns of the train platform. A large portion of the station’s mosaics depict the various Grand Princes of Kievan Rus’. Each portrait has a signature with the name of the prince and the period of government. Moreover, bronze two-level chandeliers, executed in the spirit of that time, are placed along the entire length of the central hall between the arched ornaments.

Outstanding landmark or architecture in Ukraine: [Lviv Castle Hill.](#)

By Yevhenii SHAKOTKO

The Lviv Castle Hill is the highest point of the city of Lviv, where the Lviv High Castle used to be located from the 13th century to the late 19th century. Built by Leo I of Halych, the castle was a main defensive fort of the city during its existence. A stunning and breathtaking panorama of Lviv opens from the top of the hill, which makes the place to be one of the most visited spots of the city.

Outstanding landmark or architecture in Ukraine: [Kiev metro station “Zoloti Vorota”.](#)

By Yuliia SERBENENKO

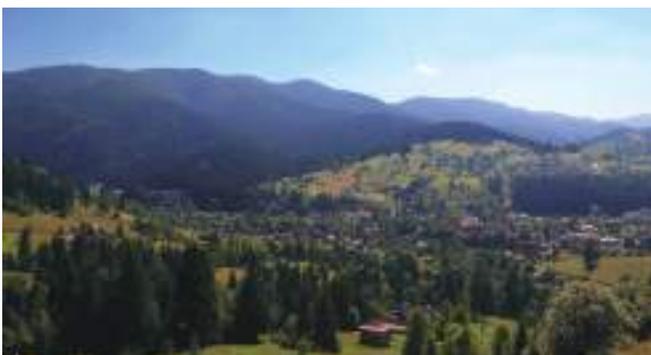

Kiev metro station “Zoloti Vorota” is regarded as one of the most impressive metro stations in Europe. It is located near the city’s Golden Gate, from which the station takes its name. The station was opened as part of the first segment of the Syretsko-Pecherska Line on 31 December 1989. It consists of three distinct vaulted halls, featuring one central hall and two side platform halls.

Outstanding landmark or architecture in Ukraine: [Lviv Museum of Folk Architecture and Rural Life.](#)

By Solomiya SHARUN

Lviv Museum of Folk Architecture and Rural Life is an outstanding open-air museum located in Shevchenko Grove (Shevchenkivskiy Hay). This place is where tourists can experience the past and dive into the beauty of Ukrainian traditional wooden houses and churches of past time periods from different western regions of our country. The remarkable beauty of Ukrainian ethnical rural architecture leaves a notable impression on those who visit Shevchenko Grove. I felt like I lost myself in a different time period when I first entered the Grove, and the beauty of Ukrainian ethnic buildings made me remember that there is no future without the past, and that we shall remember the history and glory of our country. I had a chance to imagine the struggles of the Ukrainian nation in the 18 th -20 th centuries and realized how it was for many remarkable Ukrainian poets and writers, who were able to grow up being surrounded by Ukrainian rural culture and national traditions. The Museum made a tremendous investment into preservation of Ukrainian ethnical rural history, so that the past will never be forgotten and so that future generations will always remember their roots.

Outstanding landmark or architecture in Ukraine: [Carpathian Mountains near Vorokhta village.](#)

By Anastasiia TKACHUK

Carpathian Mountains near Vorokhta village is a stunning place, which is located 850 meters above the sea

level. Where you are surrounded by high mountains which are deeply covered in forest where you feel so tiny, and in harmony with nature. Climbing up the mountains and seeing landscapes take your breath away. Mountains' beauty makes you feel pure happiness and peace. People over there are disconnected from the rest of Ukrainian casual life. They are very friendly, relaxed and mostly worry about bad harvest. An hour walk up on hill to buy bread is a common thing for them which is awesome. This place helps you to relax and escape from problems, city rush and even internet addiction. It inspires you and encourages to add some "freshness" to your life.

Outstanding landmark or architecture in Ukraine: [The House with Chimeras.](#)

By Halyna VASYLEVSKA

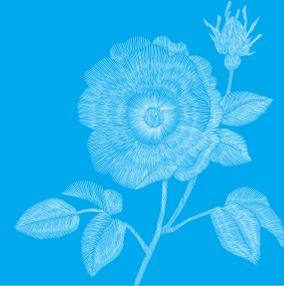

The House with Chimeras located in Kyiv is a perfect example of Ukrainian Modernistic Architecture.

Constructed by Wladyslaw Horodecki in 1902 as the personal apartment on the Hills of Dnipro, the House with Chimeras became first Ukrainian two-side object built in Kyiv. From the one side you see the building with 3 floors and from another the building with 6. Combining technique of modernism and neo-gothic elements, the House with Chimeras was the first object of this style in Kyiv and launched a architectural trend, which currently prevailing in historical center of Ukrainian capital. The building got its name from the ornate decorations depicting exotic animals and mystical scenes, which were sculpted by Italian architect Emilio Sala. In the present time it is the residency of President of Ukraine. When there are no official receptions it is open for visitors.

The Canada-Ukraine Parliamentary Program (CUPP)

was established in 1990 by agreement with Speaker of the House of Commons John Fraser. He added a new dimension to the internship programs in the House of Commons, which until 1990 accepted only Canadian and American university students. With the establishment of the CUPP program Ukraine's university students were given the opportunity to complete an internship in Canada's parliament. The internship program included work in the office of a Member of Parliament alongside the MPs staff, research in the Parliamentary Library, attendance at Question period, participation in the work of standing committees of Parliament, meetings with government officials such as the Offices of the Auditor General/Conflict of Interest and Ethics Commissioner/Information Commissioner/Privacy Commissioner/Status of Women and others. Meetings with Cabinet Ministers, Deputy Ministers, Members of Parliament, Senators, visits

to the Supreme Court of Canada, Canadian Mint, foreign Embassies in Ottawa, NGOs and Ukrainian community organizations.

The Internship allowed Ukraine's students to observe and learn firsthand the operation of a western government and parliament.

It allowed the students to learn about the structure of the Canadian Government, the division of powers between the Federal and Provincial Governments, the tools of accountability which measure the performance of the government and its departments, understand setting of priorities determined by government, learn about Canadian elections, how government manages the finances of its citizens, prepares budgets and reports on its financial management, how a Westminster parliament functions and makes laws. The following is a brief summary of some of the activities and highlights of the past twenty-seven years.

Preamble

An internship in a new cultural and political setting can serve as a transformational experience. For many of the Ukrainian Interns, CUPP turned out to be that life and mind-changing experience.

In 1991, Ukrainians looked forward to rebuilding their country, removing it from the soviet container to which they were forcibly confined, and getting a fresh start in life.

To rebuild the country, Ukraine needed vision, meaningful outside support and competent leadership infused with optimism. The rebuild required a complete cleansing of the corrupt soviet-communist system. Some considered Ukraine's challenge to be insurmountable, as it required Ukrainians to take their country out of the container of a failed state and build a new state based on the Rule of Law.

My focus was on the youth of Ukraine. To take university students

out of their soviet era cultural and political setting, and transport them to a western environment; one that would serve as a culture shock and awaken the students to the call of action. CUPP was to provide Ukraine's young generation the opportunity to work and observe the operation of a functioning democracy on a daily basis, warts and all.

Universities throughout Ukraine were canvassed for candidates and were sent information about CUPP program. CUPP representatives Yuri Ayvazian others and myself travelled to Ukrainian universities to inform students about the internship in Canada's parliament. The Embassy of Canada also assisted in disseminating information about CUPP. Particular emphasis was placed on recruiting candidates from Ukraine's east, Luhansk, Donetsk, Kharkiv, Berdyansk, Dnipropetrovsk, and (now Dnipro)

In Ukraine

1991 was considered the final year of the Cold War that began in the 1940s. During 1991, the Union of Soviet Socialist Republics collapsed into fifteen sovereign republics. On July 16 President Gorbachev came to London to ask for western aid from the leaders of the G7. Ukraine celebrated its first Independence Day on August 24, 1991.

In Canada

In Canada Ray Hnatyshyn served as Governor-General, and Brian

Mulroney was Prime Minister.

In Saskatchewan Roy Romanow was elected Premier and Sylvia Fedoruk served as Lieutenant Governor. In Manitoba Gary Filmon was the Premier (1988-1999), and Peter Liba served as Lieutenant Governor. In Ontario Ernie Eves served as Premier from 2002 to 2003.

On Parliament Hill 1991

Every new initiative has challenges. For the participants of the inaugural CUPP program Solomia Khmara, Mariana Drach and Ivan Tkachenko this was their first trip outside of Ukraine and their first opportunity to work and experience the operation of a western parliament.

The Members of Parliament who accepted Ukrainian Interns into their offices were Chris Axworthy (Saskatchewan) New Democratic Party, Jesse Flis, Liberal Party (Ontario), and Alan Redway Progressive Conservative Party (Ontario). The MPs welcomed the Interns and served as patient mentors to the Ukrainian students.

The students were billeted with 3 Ukrainian families in Ottawa within a short bus ride of Parliament Hill.

Ukrainian-Canadian teachers from Toronto met with the Ukrainian students and give them lessons on Canada's parliament, government and society.

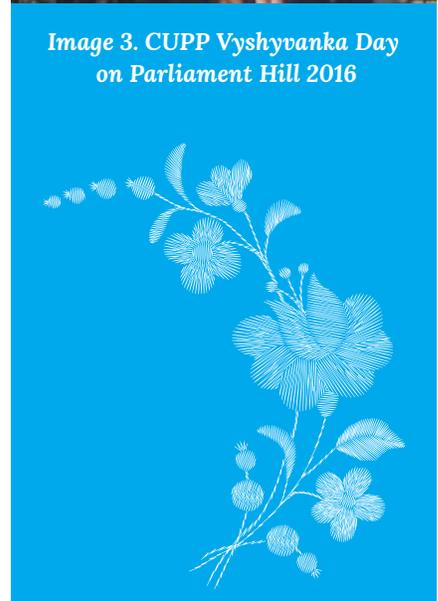

How Canadians Govern Themselves

Senator Eugene Forsey published this invaluable book in 1980. He wanted Canadians to understand how our government worked. In the book he wrote: "We cannot work or eat or drink; we cannot buy or sell or own anything; we cannot go to a ball game or a hockey game or watch TV without feeling the effects of government. We cannot marry or educate our children, cannot be sick, born or buried without the hand of government somewhere intervening".

This publication was given to the Ukrainian students to help them understand how Canadians govern themselves. Senator Forsey died on

Walking Tour of Parliament Hill

Borys Gengalo served as the official historian of CUPP and introduced the Interns to the history of the Parliament Buildings and Parliament Hill. He related fascinating stories about political figures and landmark events in Canadian history. The Interns always warmly receive his humorous and lively presentation.

Canadian Institute for Conflict Resolution at St. Paul University

With the cooperation of Vern Redekop, Chief Resident of the Institute, Ukraine's students were enrolled in diploma courses to learn conflict resolution. Several took the yearlong course and graduated as instructors and on their return to their universities introduced their colleagues to the art of conflict resolution.

Meetings with Foreign Embassies and Ambassadors

Starting in 1991, the students were introduced to Ukraine's Ambassadors to Canada beginning with Ambassador Levko Lukyanenko. As well, annual meetings were arranged with foreign Embassies, among these of the United Kingdom, USA, Germany, Japan, Poland, France, and others. At one such Embassy meeting, in 2004, the Ukrainian students met with the Ambassador of Russia. They described the meeting, as a difficult experience, as through-

out the two-hour meeting they were made to stand, encircled by a host of Embassy staff in an overheated room. The Ambassador at a juncture asked the students why they did not seek to do an internship in the Russian DUMA. The students considered this to be an unproductive meeting.

Meetings with John Sopinka

John Sopinka served on the Supreme Court of Canada from 1988

to 1997. Beginning in 1994 Justice Sopinka met with CUPP Interns in the Supreme Court Building and explained to the interns the operation of the Canadian Court System He prepared the Interns for a mock trial in which the interns served as judges and counsel in a trial with a jury. He continued these meetings until his death at age 64 in 1997.

Metropolitan Andrey Sheptytsky Institute of Eastern Christian Studies at St. Paul University

This became an annual event at which Institute Director Professor Andriy Chirovsky and Professor Pet-

ro Galadza met with the students to discuss the mission of the Institute and the work of the Ukrainian community in Canada.

Meetings with the Right Honourable Ray Hnatyshyn

Ray Hnatyshyn became the 24th Governor General of Canada on January 29, 1990 and served until February 8, 1995. From 1995 onward he annually hosted the Ukrainian students in his Ottawa office and explained the operation of Canada's government. He participated in the CUPP Annual Reunion in Canada's Embassy in Kyiv in 1999.

Second Decade

In 2000, CUPP began with two internship programs, to coincide with the Spring and Fall sittings of parliament. The number of CUPP applicants reached a record of over 3,000 from all major universities in Ukraine. The interest of Ukraine's students was overwhelming and the competition for the internship meant that some strong candidates had to apply for three years in a row, before they qualified for the CUPP program.

Participation in Elections

CUPP interns participated in national, provincial and municipal elections throughout the country, from Cape Breton Island to Vancouver Island.

Meetings with Senator Raynell Andreychuk

Senator Andreychuk has been the CUPP program's most ardent supporter on Parliament Hill and in 1997 began annual meetings with the CUPP interns. She has remained the role model of an ideal parliamentarian, for Ukraine's youth.

CUPP Alumni Association

CUPP Alumni Association was established in February 2004 during the CUPP Reunion in Kyiv. The primary aim of the association is to foster lasting ties among CUPP alumni and provide assistance to the Program. In addition to meetings at the Canadian Embassy and yearly reunions, which traditionally follow the CUPP Final Selection Meeting, the Association organizes

social events and pub nights to discuss topics of current interest in the country. In 2010 the Association was registered as a not-for-profit NGO. It has organized fundraising events to help purchase flight tickets for CUPP participants, submitted letters to state bodies with criticism or support on various issues, and initiated and realized various social projects. The Association is a founding member of Professional Government Association of Ukraine - a network of top international universities' alumni who joined forces after Revolution of Dignity to make Ukraine's government as effective as possible.

COMMONS CUP

This annual soccer competition between House of Commons "Team Commoners" and CUPP Interns Team began in 2008.

This friendly competition, which in some years raised money for the Ottawa Food Bank, included on sev-

eral occasions Ukraine's Ambassadors and members of the Ottawa Ukrainian soccer club. After each match the CUPP Interns and the MPs and their staff socialized at the OZ Dome.

President Petro Poroshenko visit to Canada September 17, 2014

Statement in House of Commons

(Newsletter 2014 Issue #1) In the House of Commons President Poroshenko thanked the government of Canada and the Ukrainian Diaspora as follows:

"I cannot help but mention one particular program that has played a significant role in enhancing our people-to-people contact. I am talking about the Canada-Ukraine Parliamentary Program.

During the years of indepen-

CUPP 2016 Interns Farewell Dinner

dence, CUPP has hosted over a thousand students from Ukraine who were able to work as interns right here in the Canadian Parliament, helping us build Ukrainian democracy. Welcome back, dear colleagues.

I also want to thank the Canadian Parliament and the Ukrainian diaspora for helping us breed a new generation of democratic and free Ukrainian leaders.”

(Excerpt from Hansard, September 17, 2014)

Listening to the address in the visitors' gallery were 46 CUPP Interns and Alumni. President Poroshenko greeted them in the House of Commons for the 24th CUPP Program.)

Ukrainian Day on Parliament HILL 2014

Initiated October 30, 2014, the activities of the day included meetings

with Members of Parliament to lobby them to support Ukraine in the defense of its sovereignty, displays in the Rotunda of Parliament of Ukraine's accomplishments and expanding relations with Canada. The program began with an Inter-faith Prayer for Peace in Ukraine and throughout the World at the eternal flame on Parliament Hill. Participating were Dr. Brian Butcher of the Sheptytsky Institute, Abdul Rashid President of the Capital Region Inter-faith Council, Rabbi Chaim Boyarsky of the Chabad Student Network of the University of Ottawa, Kojo Almasi of the Laurentian Leadership Program of Trinity Western University, Rev. Migus Seminar at Grande Lac, Quebec

For a decade Paul Migus and Eva Kmiecic hosted CUPP Interns at their home. Paul Migus conducted a daylong seminar; with enjoyable breaks for lunch, boating on the lake, singsongs. The seminars dealt with the legislative, executive and judicial branches of government; debates about core values and guiding principles of Canadian society. The Migus Seminar was an important learning experience for the Interns.

Canadian Parliamentary Review

The Canadian Parliamentary Review was founded in 1978 to inform Canadian legislators about activities of the federal, provincial and territo-

rial branches of the Canadian Region of the Commonwealth Parliamentary Association and to promote the study of and interest in Canadian parliamentary institutions. The editors invited the CUPP program to submit an article about its activity in the House of Commons. CUPP 2004 Interns Natalia Salo, Artem Korochynskyy, Bohdana Nosova, Ivan Skrypka, Taras Stasiv, Halyna Tytysh and Olha Voronova, collaborated to write an article. The article was published in this prestigious publication in the winter 2004-05, Volume 27, No.4 issue. It is available in the House of Commons Library.

CUPP 2014 Interns observe USA

elections

Five CUPP Interns travelled to Portland, Maine at the invitation of the Maine Democratic Party to observe the 2014 USA Mid-Term Election. The USA voters cast ballots for the State Governor, Senator from Maine and new members to the House of Representatives. The CUPP Interns were able to observe and compare the election in the US presidential system of government with the Canadian parliamentary system of government. Both elections are on the “first past the post rules”.

Volunteer activities

Interns throughout the years the Interns were asked to perform volun-

teer work with a number of Ottawa institutions such as the Food Bank, Shepherds of Good Hope; Tulip Festival, Big Brothers and Big Sisters Derby; Ukrainian Churches, fundraising for Wounded soldiers in Ukraine; participate in the Terry Fox Run.

Canada is a constitutional monarchy with parliamentary democracy, comprising of ten provinces and three territories. The name Canada comes from a word in the language of the St. Lawrence Iroquoians meaning “settlement.”

Following several constitutional conferences, the British North America Act brought about Confederation creating “one dominion under the name of Canada” on July 1,

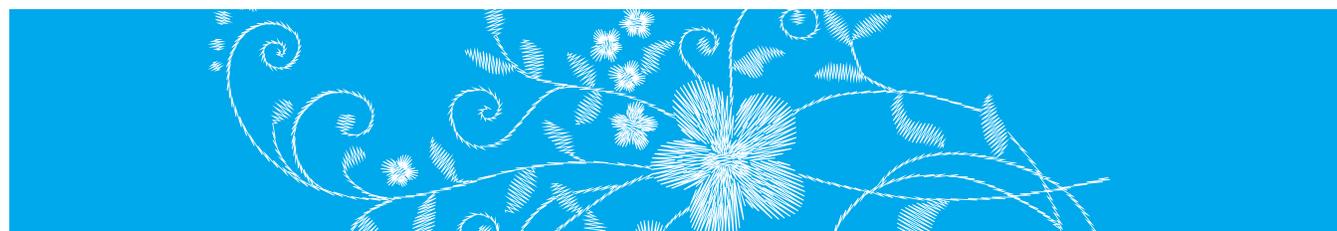

1867 with four provinces: Ontario, Quebec Nova Scotia and New Brunswick.

The Federal or national parliament is made up of the Monarch (Her Majesty Queen Elizabeth II) and two houses: an elected House of Commons and an appointed Senate. Each member of the House of Commons (MP) is elected by simple plurality in an electoral district (or riding or constituency). The House of Commons consists of 308 members (MP’s) elected first past the post from 308 single-member electoral districts (constituencies or ridings).

Legislative Assembly of Manitoba

Manitoba joined the Dominion of Canada on July 15, 1870. Winnipeg was the capital. The name for the province of Manitoba probably comes from either the Ojibwa word “Manito-bah” or the Cree “manitowapow,” meaning “strait of the spirit” in reference to the Narrows of Lake Manitoba. The Legislative Assembly consists of 57 members elected first past the post from 57 single-member electoral districts (constituencies or ridings). The government of Manitoba is organized as a parliamentary democracy with a unicameral legislature.

Вікно в Канаду

Роман ДІДЕНКО

CUPP 1996

Volodymyr Dahl National University, Luhansk

Intern to the Hon. Lawrence MacAulay, Cardigan P.E.I.

Я сиджу і дивлюся крізь вікно. Надворі всі ознаки близької весни. 28 лютого 1997 р. Сніг, що давно вже перестав піднімати настрій, поступово тане, відсту паючи під натиском все сильнішого сонця. Звідкись лунає тиха музика. Пізнаю U2, а потім Depeche Mode. За вікном мчать машини, десь пішов самотній пішохід, а я все дивлюся і думаю. Де я? Чому я тут? І де я був рік тому?

Ще з тих пір, як я був студентом першого курсу, пам'ятаю одну фразу із підручника англійської мови Аракіна: "Canada is a far away country..." І ось я тут, в цій далекій країні, в її адміністративному центрі (завважу, що в цей пору року, я б ні за що не хотів опинитись в центрі географічному). В Канаді я вже вдруге. Позаду – надзвичайно цікава низка подій і пригод. Попереду –

великі перспективи, спричинені набутим досвідом і бажанням втілити в українське життя все те позитивне, що я бачу в цій країні, яка, за визнанням ООН, є найкращим у світі місцем для життя.

А почалося все вранці 4 травня 1996 р., коли літак авіакомпанії AirUkraine відірвався від рідної землі з серйозним наміром повернути Атлантику, несучи мене в мою першу закордонну подорож. Я був одним з тридцяти студентів з усіх куточків України, що подолали довгий шлях від біркових змагань на шляху до Оттави, щоб стати учасниками шостої Парламентської Програми Канада-Україна. Студенти яскраво виділялись на фоні здебільше похилого віку пасажирів літака, як виділяється і програма, своєю неповторністю і націленістю на майбутнє. Дев'ятого

травня переможців зустрівала Оттава – чарівне місто на березі однойменної річки. Перед нами постав з туману Парламентський пагорб, піднявшись на який і було нашою основною метою. Будівлі канадського парламенту витримані в єдиному стилі, що дуже нагадує будівлі парламенту британського, що зрештою не дивно, зважаючи на те, як тісно пов'язана історія цих двох країн. Прохолодний туман, суворі парламентські будівлі, Башта Миру, що височить над усією Оттавою, а особливо церемонія зміни караулу у виконанні Королівської Гвардії миттєво створюють відчуття перебування в старій добрій Англії. Але це лише перше враження.

Канада вже давно провадить свою власну політику і учасники програми Канада-Україна мали

виняткову нагоду провести два місяці в самому серці канадської політики, працюючи в офісах депутатів парламенту і спостерігаючи політичне життя зсередини – нагоду, яку має далеко не кожний. За словами одного з моїх товаришів по програмі, величезна цінність її полягає в тому, що вона надає можливість набути досвіду професійного пляну який є безцінним для людей зацікавлених у політиці, а радше у майбутньому своєї країни. Враження, отримані під час зустрічей з канадськими політиками та урядовцями, юристами та науковцями, дуже важко передати словами, але забути навряд чи можливо.

Культурна частина програми ніяк не менш насичена і захоплююча. Я ніколи не мріяв побачити так багато за такий короткий проміжок часу. Торонто, Монреаль, Ніягарський водоспад, національний парк Алгонквін, автомобільний завод General Motors в Ошаві, і сама Оттава з її численними музеями, фестивалями і кафе на будь-який смак – все це було частиною програми і назавжди лишилось частиною моїх спогадів.

Багато країн стараються надати своїй молоді досвід роботи в канадському парламенті. Тим більш приємно знати, що програма КанадаУкраїна є лідером, як за числом учасників, так і за рівнем організації, випереджаючи навіть

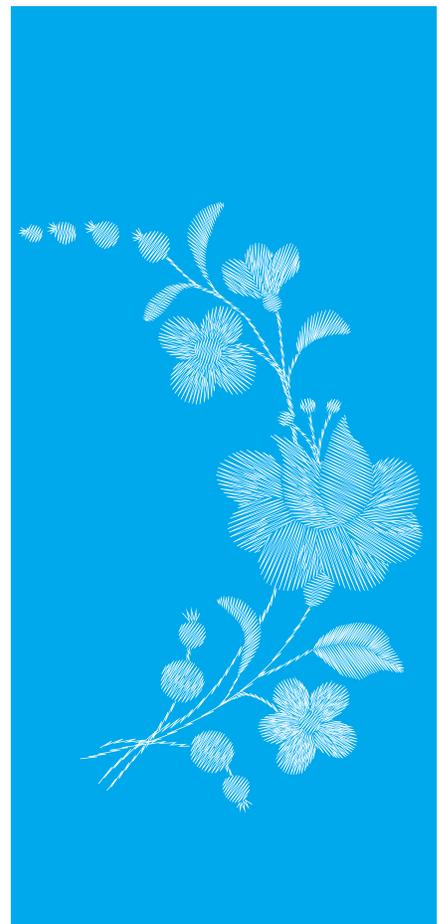

“у всьому перших” американців. Все це стало можливим завдяки Фундації катедри українознавчих студій в Торонто (Chair of Ukrainian Studies Foundation) на чолі з паном Ігорем Бардиним. Розуміючи, що майбутнє України неможливе без освіченої і досвідченої молоді, Фондація започаткувала парламентську програму в 1991 р. і дотепер робить все, щоб надати українським студентам можливість навчатись і набувати досвіду у найкращих наукових та професійних установах світу.

Не варто і казати, що два місяці програми пролетіли дуже швидко. І незчулися ми, як уже настав час для офіційної церемонії закриття програми, що відбувалась в Торонто в атмосфері піднесення і, водночас, суму, бо то ж таки було логічне завершення. Завершення, але не кінець. Багато хто з минулорічних учасників програми зараз продовжує навчання в престижних університетах Західньої Європи та Північної Америки. Дружба, що почалася під час програми, залишиться назавжди. Уже зараз випускники програми активно включаються у суспільне життя в Україні, але це лише початок. Далі буде більше, і кажучи словами одного з учасників Парламентарної програми Канада США: “Україна буде в надійних руках, коли ця група молодих, енергійних і освічених друзів вийде на політичну арену”. Наприкінці програми, я отримав

почесну нагороду: Стипендію імені Джона Сопінки, для однорічного стажування в Канадському інституті полагодження конфліктів. І ось я знову в Канаді, в її адміністративному центрі.

Я вивчаю науку, що є новою навіть тут, у Північній Америці, але яка надзвичайно швидко розвивається і тіснить традиційні суди і бійки як засоби розв’язання конфліктів. Безперечно, ці нові ідеї знайдуть своє місце і в Україні і я в захопленні від можливості бути одним з найперших українців у цій новій сфері.

Знову дивлячись у вікно, я не можу не думати про те, що участь в Парламентарній програмі Канада-Україна стала для мене вікном

в Канаду, в новий світ широких перспектив. Перебування в чужій країні, відділеній тисячами кілометрів води і суші від рідної домівки, дало мені крім всього іншого, одну можливість, якої я взагалі не очікував. Вперше, я посправжньому відчув свою тотожність, причетність до України, гордість за свою націю і країну. У цьому пляні участь у Парляментрній програмі Канада-Україна стала й вікном у мою власну душу. А чи можна отримати знання більше, ніж розуміння самого себе? почесну нагороду: Стипендію імені Джона Сопінки, для однорічного стажування в Канадському інституті полагодження конфліктів.

CUPP KIDS

CUPP welcomes the next generation of future interns to the CUPP Family!

The Canada-Ukraine Parliamentary Program is now twenty-seven years old - more than enough time for a few generations of Alumni to have already started their own families and became parents of smart and active little ones.

As always, CUPP loves hearing from its alumni and wants to keep in contact with you to hear how you're doing, share what's new in your lives, and help you celebrate any new arrivals - the CUPP Kids!

P.S. If you're one of those who have become a parent since your time in Canada, we'd love to hear from you.

CUPP celebrates Canada's 150th birthday!

Iryna HRECHKO
CUPP 2017 Coordinator

Kyiv, 13th September 2017

On 12th September, Canada's Ambassador to Ukraine, **Roman Waschuk** welcomed a group of CUPP Alumni and Interns selected for the 2017 Canada-Ukraine Parliamentary Program (CUPP) at his residence in Kyiv. The occasion was to celebrate Canada's 150th Anniversary and provide an opportunity for Ambassador Waschuk to prepare the Interns for their internship in the Canadian Parliament.

In addition to celebrating Canada's 150th Anniversary, the meeting was an opportunity to celebrate the strong ties between Canada and Ukraine, the countries' common values and shared ambitions. In light of this Ambassador Waschuk spoke about Canada's proud traditions of multiculturalism and of his belief that 'Ukrainian DNA' has been deeply integrated into the Canadian identity, placing particular stress on the important role that Ukrainians have played in contributing to the ethnic diversity and history of the Canada that we know so well today.

Among the guests were some of the brightest and most prominent CUPP alumni of the program, as well as the newest group of Interns who, were been chosen to do the internship, after a 9 month long competition, and departed for Canada the following day. Each year only the very best applicants are chosen from a countrywide competition, to complete their internship during the Fall Sitting of the House of Commons, in Ottawa.

Many of the CUPP Alumni who attended the meeting

have a become senior government officials in their own right, and among those who attended to offer greetings and show their support for Canada's 150th Anniversary were the current Minister of Infrastructure Volodymyr OMELIAN (CUPP 1999), his deputy Viktor DOVHAN (CUPP 2000); former Minister Andriy PYVOVARSKY (CUPP 1999); deputy Minister of Justice Serhiy PETUKHOV (CUPP 2005); Head of the Department International Cooperation and European Integration of the Department of Education Anna NOVOSAD (CUPP 2013), Counselor of Verkhovna Rada's Committee on Security and Defense Yuri CHYZHMAR (1995).

Also present were co-founder of the Ukraine Crisis Centre and coordinator of the Professional Government Association of Ukraine Vasyl MYROSHNYCHENKO (CUPP 1996); Yuriy LUBKOVYCH (CUPP 2009) Chief of Staff of the Cabinet of Ministers; Yuri KUSHNIR (CUPP 1998) President of the CUPP Alumni Association; former Member of Parliament Elena SHYSHKINA (CUPP 2003); Deputy Director of the Investment Promotion Office Ulyana KHROMYAK (CUPP 2001); founder of TEACH FOR UKRAINE Andrew SOROHAN (CUPP2013), as well as a number of CUPP's past coordinators.

Unable to attend were Deputy Minister of the Department of Economic Trade and Development Nataliya MYKOLSKA (CUPP 2000); and Director of TEACH FOR UKRAINE Rimma EL JOUEUDI (CUPP 2011).

Their program coordinator, Iryna Hrechko who served

her 2016 internship with Member of Parliament Jamie Schmale, joined the interns of CUPP 2017. The CUPP Interns past and present were appreciative of Ambassador Waschuk's hospitality and his support for the only international internship program available to Ukraine's

university students on an annual basis. Ambassador Waschuk wished the 2017 Interns success in their upcoming internship and a safe flight on the eve of their departure for Ottawa, the next morning.
